belongs to those who prepare
for it today. (Malcolm X)

Qualifi

Level 7 Diploma in Occupational Health and Safety Management

Course Overview

The Qualifi Level 7 Diploma in Occupational Health and Safety Management, with the designated qualification code 610/2295/0, is strategically crafted to offer a profound educational experience for professionals who aspire to assume leadership roles or are currently active in the field of occupational health and safety management. This advanced diploma is meticulously designed to provide a comprehensive and sophisticated understanding of the key principles, practices, and challenges associated with overseeing health and safety within occupational settings.

Learning Outcomes

- Understand the factors that influence an organisation's culture and atmosphere around health and safety.
- Be able to evaluate organisational practices and structures relating to health and safety.
- Understand what contributes to being able to present a plan which promotes a health and safety strategy for the organisation.
- Be able to assess health and safety risks within the organisation.
- Be able to promote plans and engage all levels of the business so that the strategy is actioned, monitored, and evaluated.
- Understand the scope for ethical business practices on the part of the health and safety professional and the scope for developing engagement and commitment to ethical behaviours and measures.
- Be able to plan and prepare a research project.
