Live online at weekends | Recorded | Blended with classroom participation

Awarded by Qualifi, an Ofqual-recognised awarding organisation.

CURRENT QUALIFICATION STRUCTURE

Eight units. A wider view of safety.

All units are mandatory. Each carries 15 credits and 150 hours of total qualification time, giving 120 credits and 1,200 hours overall.

01 Management-Driven, Risk-Based Safety Management Systems

Evaluate safety management systems and the leadership decisions that shape risk control.

02 Globalisation, Sustainability and Safety Culture Performance

Explore how global operations, sustainability and organisational culture influence safety.

03 Digitalisation and Incident Investigation

Assess the effects of digital technology and use structured investigation to understand incidents.

04 Development as a Strategic Manager

Review your leadership capability and plan professional development around organisational needs.

05 Safety Programs and Concepts

Apply safety concepts and calculations to identify hazards and evaluate controls for work activities.

06 Ergonomics

Examine human factors, workplace design and physical demands to improve occupational safety.

07 Industrial Hygiene and Occupational Health

Evaluate occupational exposures, health hazards and approaches to exposure prevention.

08 Fire Safety

Assess fire risks, prevention measures, protection systems and emergency arrangements.

RQF Level 7	Qualification number: 603/5639/X	Awarded by Qualifi

FLEXIBLE STUDY. CLEAR EXPECTATIONS.

Study around your professional life.

Live online

Tutor-led sessions held over the weekend.

Recorded

Learn through recorded sessions at times that suit you.

Blended

Live or recorded study combined with classroom participation.

Tutor support is available throughout your studies. Exact weekend times and classroom arrangements are shared by admissions.

Duration and workload

TMC's usual completion period is **6-8 months**. You can start at any time once admission is complete.

Qualifi specifies **1,200 hours** of total qualification time. This covers guided study, independent learning and assessment; it is a workload estimate, separate from calendar duration.

8 written assignments

Complete one written, work-related assignment for each of the eight units. There is no conventional written examination. Work must be your own, and every unit must be passed to achieve the diploma.

Entry routes

You need **one** of the following:

- A Level 6 qualification in a related sector;
- A bachelor's degree in engineering;
- A master's degree in engineering; or
- At least three years of managerial experience showing current, relevant industry knowledge.

Eligibility check and admission interview come before payment. Applicants with substantial experience but no formal qualification may be considered through interview.
